Build Your Brand 1: Thinking about a job search

Please note that if the instructions here ever differ from the PDF Task instructions, you need to follow these (form) instructions as they will be the most up-to-date.

If you're self-employed:
Input the contact details of companies and the business contacts of places you would pitch your services or products to. Also, please fill in the section right at the end of the form.

If you are ready to apply for jobs:
You won't actually be applying in this task, but we would like you to think about the sort of roles you might like to apply for and the sort of companies you might want to work for. Find 2 junior tech roles currently being advertised, ensuring you consider large and small companies as well as tech startups. For each of these, identify the recruiting/hiring managers (possibly the Talent or HR people at each company). Capture the details of each of the 2 roles and contacts in this form. If any of your URLs are greater than 255 characters, shorten them by using bitly.com and paste the shortened version into the form.

If you're not ready to apply for jobs yet or may even be currently employed and not looking for a new role right now but are hoping to achieve a promotion or new role working for your current employer:
We still require you to identify relevant contacts and get into practice should you eventually look for a new role. However, we will NOT reach out to these employers on your behalf. Please also fill in the contact at your current company who would be involved in a change to tech.

Your Personal Details:

Your Name *

Christophe	Bibby
First	Last

Your Email Address *
